PROJECTS

1. The Aqua Shop (Static Website)

Created a static website for a fish accessories shop using HTML and CSS. Designed product display sections and responsive layout for better user experience.

2. Origin X (Full Stack Job Portal)

Built a full stack job portal application enabling users to browse and apply for jobs, and Companies to post job listings. Integrated frontend with backend APIs using FastAPI and implemented database connectivity.

3. My Portfolio (Personal Website)

Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase profile, skills, and projects with a clean and structured design.
